## PROFILE

---

As a Computer Science student, I am passionate about continuously expanding my skill set and eagerly seeking new opportunities. With a focus on front-end development, I have gained experience in HTML, CSS, and JavaScript, and I am dedicated to learning more front-end skills to create engaging and interactive web experiences. I am excited to contribute my knowledge and expertise to innovative projects and grow as a developer.

## PROJECTS

---

### Tower Block / SkyScraper

2023

Role: Frontend Developer

- Crafted an engaging Tower Block game using **HTML, CSS, and JavaScript**. Designed the game to challenge players in stacking blocks with precision and speed.
- Implemented a responsive and visually appealing user interface, ensuring seamless gameplay across various devices.
- Integrated a scoring system to track players' achievements and level progression. Created an addictive and competitive gaming experience that keeps players coming back for more.

### Memory Card

2023

Role: Frontend Developer

- Designed and developed an Emoji Memory Card game that offers a unique twist on the classic memory card challenge. Created a visually engaging experience using **HTML, CSS, and JavaScript**.
- Curated a diverse selection of emoji cards, adding an element of surprise and humor to the game. Players can enjoy matching a wide range of emojis, making it a joyful and memorable experience.

### Snake and Food Game

2022

Role: Frontend Developer

- Created a fully functional Snake and Food game from the ground up using **HTML, CSS, and JavaScript**. Implemented the core game mechanics, including snake movement, collision detection, and food generation.
- Designed a responsive user interface that ensures the game is accessible and enjoyable on various screen sizes and devices.
- Introduced dynamic speed adjustments to increase the game's complexity as the snake grows. Implemented a scoring system to track player performance and provide feedback. Enhanced user engagement with interactive game over screens that display scores and encourage replay.

## SKILLS

---

### Languages:

C++, Java, Python

### Web Development:

HTML, CSS, Javascript

### Tools:

VS Code, GitHub

## EDUCATION

---

### BE Computer Science Engineering

CHITKARA UNIVERSITY

CGPA - 9.41

2021 – 2025

Rajpura, Punjab, India

### (XI - XII)

Govt. Model Senior Secondary School

XII - 95.6%

2019 – 2021

Chandigarh, India
